

In the E-safety Group we have been teaching people how to keep safe on the internet. Some of year 6 students played a part in our recent SuperSMART assembly. This told all the children what to do when a stranger asked for personal information on the internet. SuperSMART was the character telling the people on the internet not to give out their location and to never to meet up with strangers. Jack had to remember the smart rules:

S – Keep your personal information safe and secure.

M – Do not agree to meet anyone you meet on the internet – they may not be who you think they are.

A – Do not accept any e-mails or messages from people you don't know. They may contain nasty viruses that would harm your computer or mean and nasty messages from them.

R - Remember, do not always rely on information that you find on the internet. It may not be correct.

T – Finally, if something upsets you when you are on the internet, always TELL an adult, whether you are in school or at home.
